*Which week of Spirit Week was your favorite? Why?*

"I would have to say 60's and 70's day because it gave everyone the chance to enjoy school without being monitored so closely by administrators and being sent to the office for dress code violations." — **Monique Hardnett**

"My favorite would have to be 60's and 70's day because students were able to express themselves through their parents' clothes and not get laughed at. I had a ball!" — **Larry Swint**

"I think the best day of Spirit Week was Tacky Day because you know sometimes family members and other people give you clothes that are ugly and you would never wear them. Tacky Day gives us the opportunity to wear those clothes and relieve a little guilt at the same time. That way you wear the clothes they bought you and you can fit in with everyone else at the same time." — **Amanda Rulapaugh**

"I would have to say that 60's and 70's day was the best of all because it was the hyppest thing we did all year. I got a chance to play a different role for school for a day and have fun." — **Martez Hill**

# STOP, LOOK, AND LISTEN!

## Hail to the Chief

### *Getting to Know Westside's First Principal*

**Mrs. Pat Coxsey** attended North Little Rock High School in Arkansas, and was a member of the Honors Society, Latin Club, Spanish Club, TRI-HI-Y, Spirit Club, and Student Council. She was also on the yearbook staff and the pep squad. She remembers bon fires before big rival games and decorating and attending the Junior Senior Prom.

**Mrs. Coxsey** is an alumna of Arkansas State Teacher's College, University of Alabama, and the University of Georgia. She has enjoyed teaching, counseling and administration.

The goal of **Mrs. Coxsey** is to offer something to everyone who attends Westside High School. She wants students to be prepared to go on to college

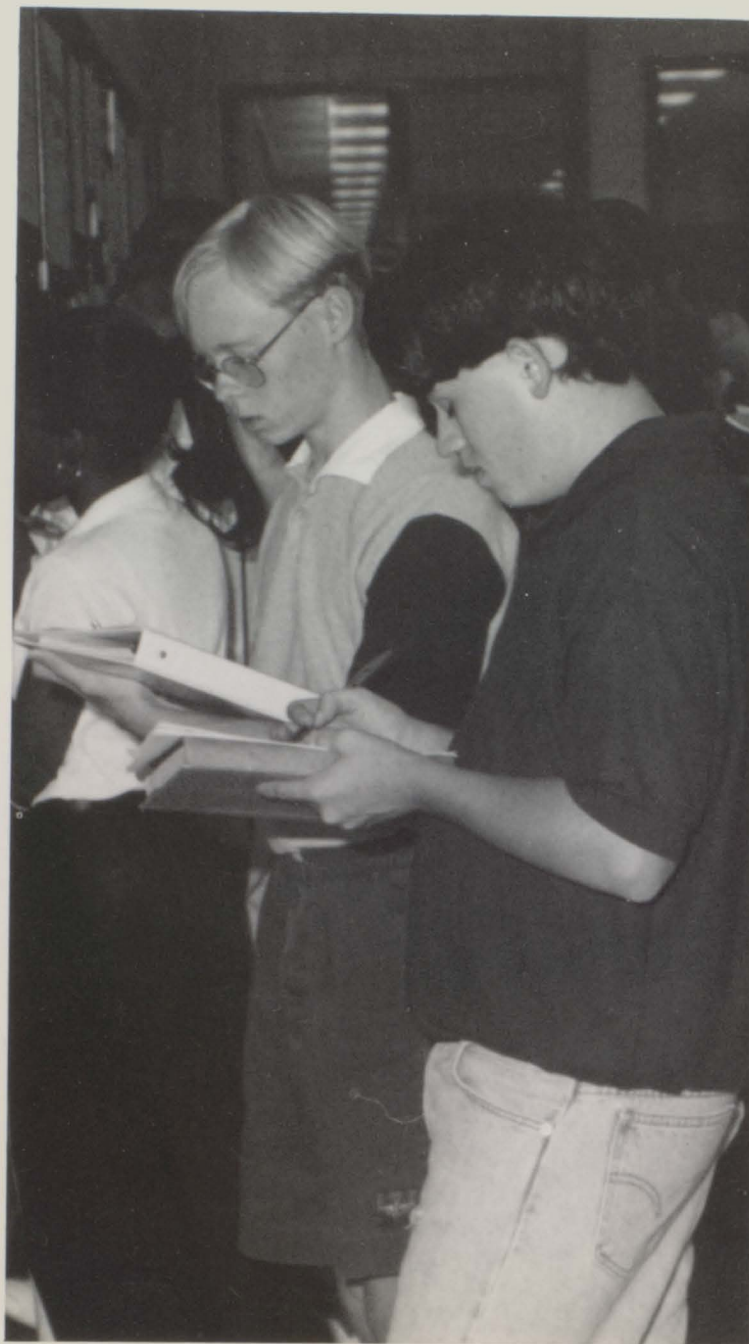

or technical school or be ready to begin an entry level job. She hopes that the students will leave with a respect for diversity, love for humanity and a willingness to give back to the community.

**Katy Miller** and **Dustin Solomon** learn from the "Freedom Shrine" wall, but they take time to smile for the camera.

**Michael Sheehan** and **Dalton Taylor** are not bothered by standing up to study.

**Mrs. Kitty Knight's** second period English class eagerly anticipates her next word of intelligence as they read and discuss *The Scarlet Letter*.

**Jennifer Davis** uses her library time to hit the books.

**Tiffany West, Jeff Welcome,** and **Carrie Vick** are eager to learn more about Latin.

**Karley West** searches the computer, instead of the books, so she can study faster.

**Tiffany Rumble**'s study group seems like they are in a deep discussion while snacking.

**Astrid Bosse** uses the library's resources to guide her studies.

**Chasity Middleton** is deeply absorbed in her work in the media center.

## STUDY WHAT?!!

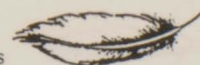

*Students demonstrate different study habits to fulfill their educational requirements.*

For their first year at Westside, students demonstrate different study habits. As if the building isn't confusing enough, the classes make students really dig out their intelligence and brain power. Most students really want to make a good impression on teachers and the school, so they try to work as

hard as possible. Studying is becoming a daily routine for most students and finding a nice, quiet area is difficult. The Media Center is the most quiet place to study but even that can be a noisy place at times.

By the time they reach high school, most teens have realized the need to succeed in their studies, and they usually

find creative ways and places to study. The bottom line is, students should study in the way that helps them learn, for knowledge is the key to success in life.

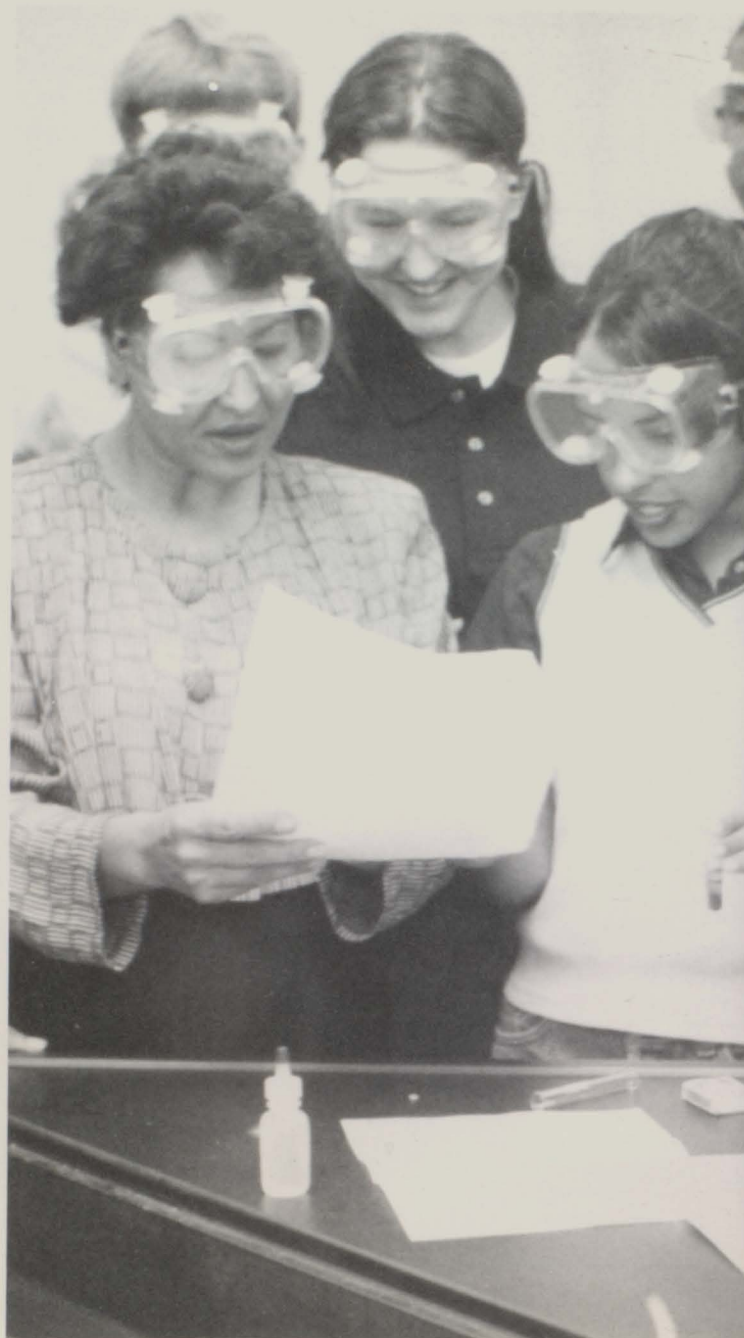

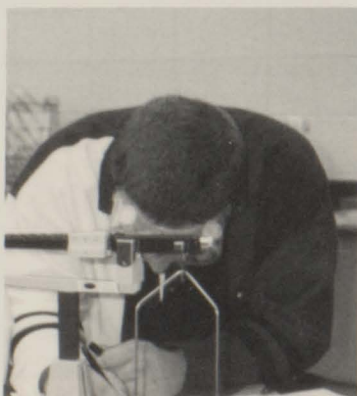

**Emily Alford** is trying hard to get the exact measurement of the substance in the Chemistry lab.

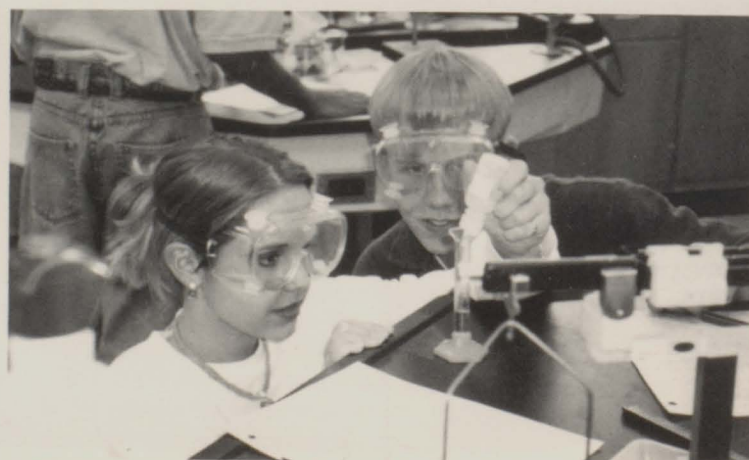

**Ms. Asadian's** class is excited about the lab that they are working on.

**Mike Davis** carefully puts the copper sulfate in the weighing boot to be measured.

**Trey Thiel** is focused on this lab.

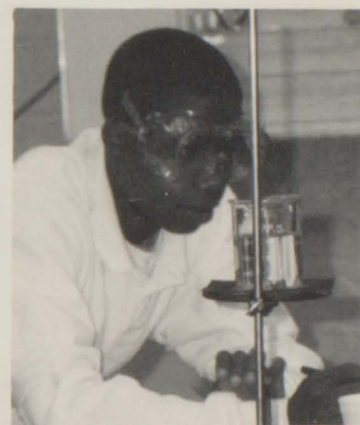

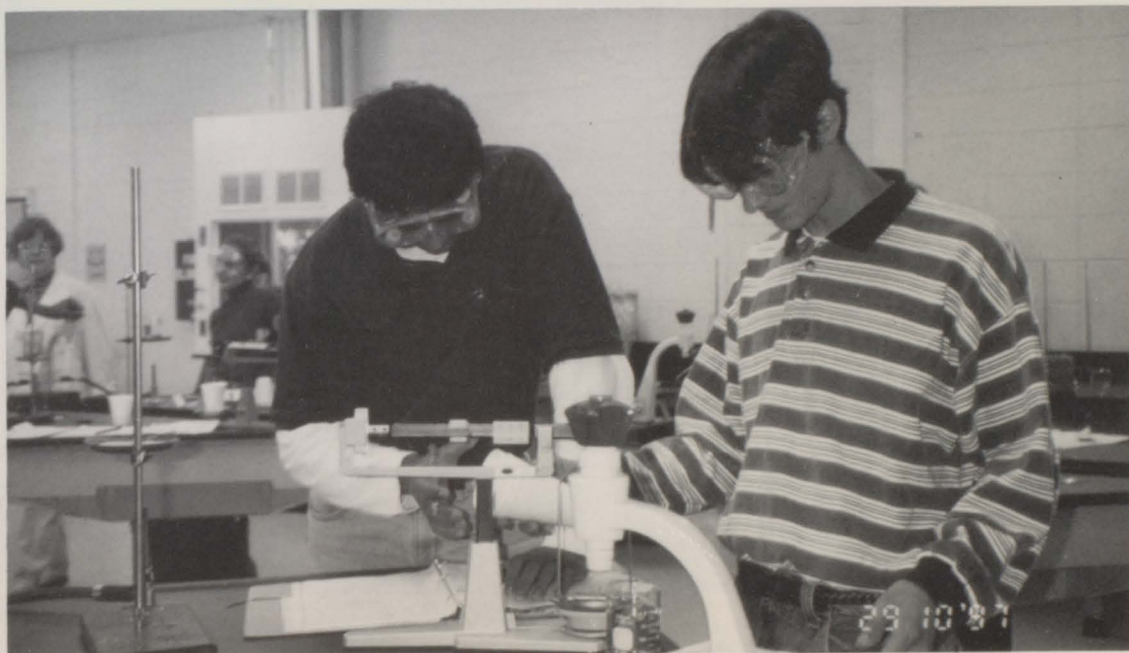

The students in **Mrs. Leggett's** class are conducting light through several liquid conductors.

**Gray McDonald** and **Angie Stevens** are in shock over the temperature results in Chemistry class.

**Ryan Crocker** and **Nishal Patel** configure the weight of the cups in **Mrs. Carol Miller's** class.

**Gary Redding** watches with interest as the water is heated in Honor's Chemistry class.

## BALANCING IT OUT

"Balancing it out" is basically what doing a science lab is all about. Some students do not like to do labs due to the fact that they have to take the time to perform the lab properly. They have to sit down and balance out the amount of ingredients that are needed for that lab. According

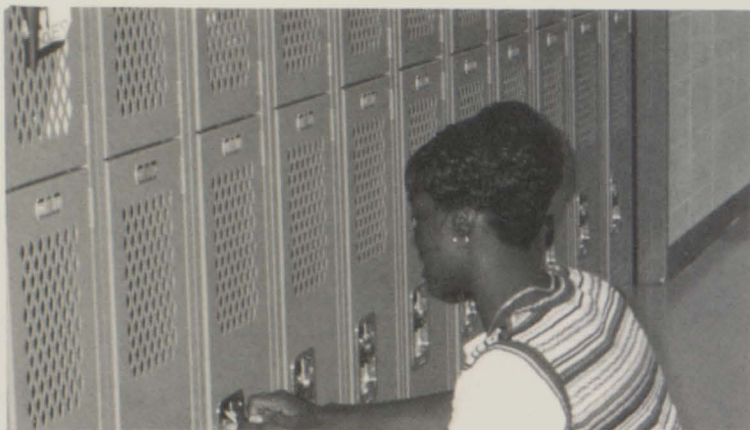

to those surveyed, most boys enjoy labs while many girls are less enthused. The purpose of a lab, from a teacher's point of view, is to let the students have a chance to actually see how what they read in class applies to life. It helps students get a hands-on view of science. Labs can be fun and entertaining,

while at the same time teaching the students an important lesson. All that you have to do is follow procedures and always make sure you wear your safety goggles!

**Kwanza Curtis** takes time between classes to go to her locker on the 200 hall.

The tall clocktower on Westside's front ensures that students arrive at school on time.

During orientation, students gather around a table manned by **Charles Stevens** and **Diane Frank**.

**Moses Herring** stands before his peers and calls for order in a Beta Club meeting.

A Seminole, Westside's mascot, "breaks" through the gym wall, symbolizing the spirit of Westside's students.

**Candace Smith** looks hard for the answer to the questions in **Mrs. Garmon's** class.

Workers sweat in the hot August summer sun while laying the foundation for Westside's beautiful courtyard.

Westside High School, now completed, awaits the students' arrival.

**Sarah Pawlick** enjoys the fresh air while finishing her homework on one of the new benches in the courtyard.

## The "Building" Of The Legacy

### *A Comparison Of Westside And Other Surrounding Schools*

For the past two years, there has been talk of a new high school. The time has come and it finally opened. The building on open land in the newly developed section on Heath Road. Students came from all over the Macon area to attend this school. The school is a mixture of two rival high schools — Central and Southwest. The Chargers and the Patriots became united

under one building as the Seminoles.

Westside features two courtyards — one for all students to use and one dedicated for the juniors. The school sold bricks with inscriptions for fifty dollars, which are very similar to the bricks in Atlanta's Centennial Park. The courtyard also has park benches for the students to sit and relax during the day.

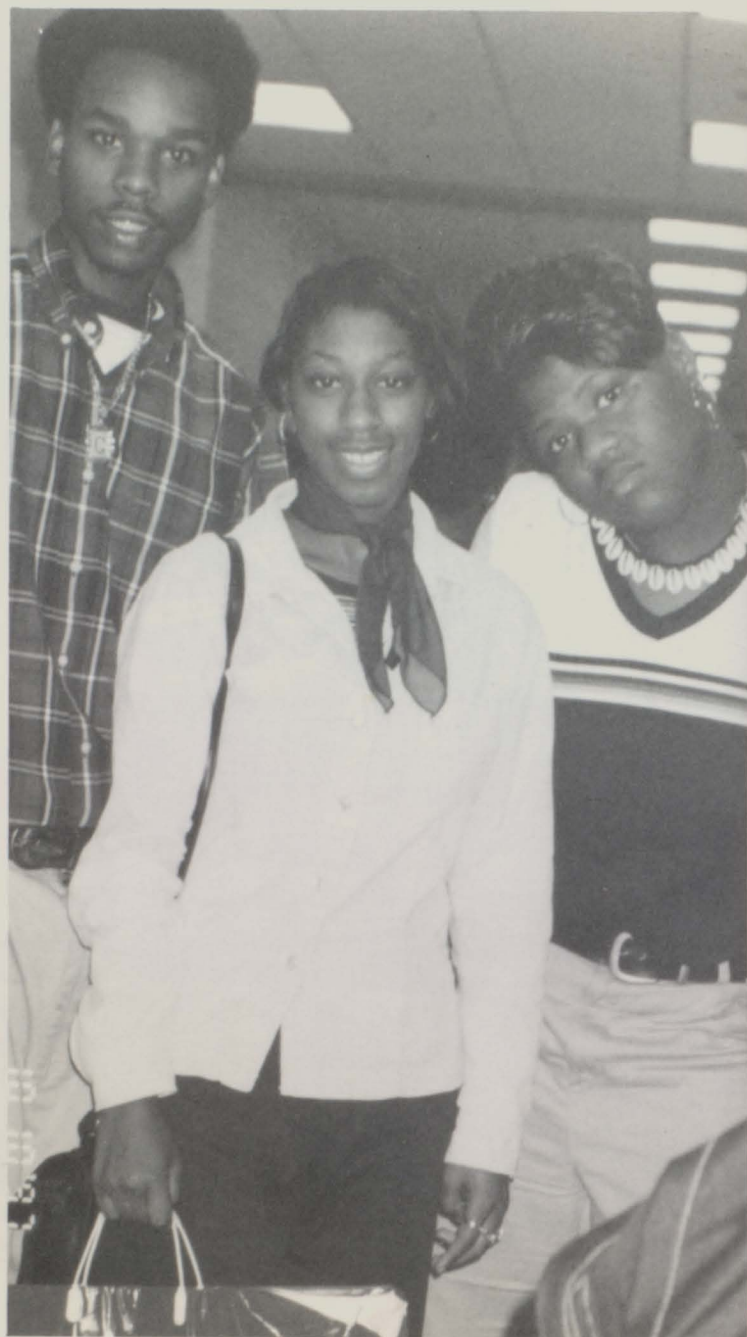

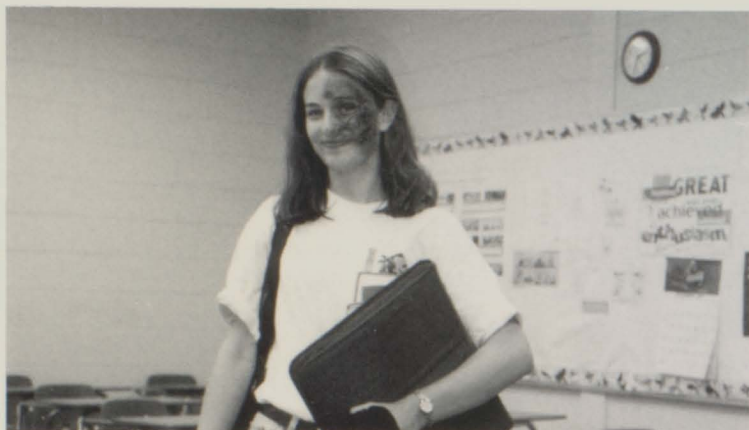

Both faculty and students agree Westside High School has better accommodations than the previously attended schools. The classes are cleaner, the hallways are wider, and the lunchroom has better food. The school has new heating and air systems, which is a blessing, and has big picture windows for students to enjoy the beautiful campus.

**Emily Lawrence** is in dress code, but her face is scar-painted for Halloween showing the effects of drunk-driving.

**Lacanta Duhart, Jacinta Moss,** and **Monique Hardnett** are coming back from a long day at the "Career Fest" and everything about their dress is right!! Go Westside Juniors!!

**Blake Walkemeyer, Angela Ray, Ashley McCroba, Whitney Setzer, Erin Miller, and Laura Akin** are chillin in the library all decked out and most definitely in dress code.

**Liz Bush** is so hard at work in her art class that she doesn't notice her shirt has become untucked.

Westside has a policy about jackets this year — they may not be worn in the building. Some people are out of dress code, but it's only until they can get to their lockers to put them away.

Everyone is going to class "in the code"

**Shelly McCray** relaxes on Westside's beautiful front steps, showing off the new dress code.

**Sarita Hill** is leaning on the wall for a quick snapshot, all in dress code.

Students found that they must wear their P.E. shorts within the length regulations of the dress code.

## Westside Experiments

### *Students Enjoy Experimenting In Science Lab.*

The students at Westside High are being introduced to different theories of science. They learned about different phases of matter of states; they are solid, liquid, gas, and plasma. The students also learned about the electron cloud. The exact location of the electrons is never known.

Scientists say that electrons move too quickly and are too tiny to ever be pinpointed.

Their instructor taught them the difference in chemical and physical changes. Physical change is when the entire substance has different properties. Chemical change is when it changes in size, state,

color, and shape.

The science classes at Westside High have done several labs. One particular lab is Date and Observations. During this lab, the students learned that mossy zinc fogged and fizzed when it reacted with Hydrochloric Acid.

**Mr. Andersen** hears many excuses during the day, but here he "throws" the gavel at **Starlett Brown**.

**Kim Eason** hurries to her locker so she won't need an excuse for being late to class.

"I couldn't get the stove to heat up — that's why my turkey isn't done!" **Jamie Shepherd** checks something in the oven while holding her "baby" from Parenting class.

"I'm sorry I was late from lunch, but I had to use the telephone," **Latanya Bell** seems to say.

**Rochelle Tillman** and **Jessica Jackson** tend to "their" infants. "I'm trying to stop the baby from crying, but I can't!"

**Travis Hightower** makes no excuses as he constructs a picture frame in Shop class.

**Mrs. Ishmail** counsels 9th graders on how to avoid making excuses in school and life.

A common excuse for tardiness to class is, "My locker won't open!" **Nancy Lester** works on hers.

**Crystal Ailes** labels a unit circle in **Mrs. Davis's** Trigonometry class so that she won't have to make an excuse.

## So, What's Your Excuse?

*Making excuses is a common occurrence for many students at Westside High School.*

Teachers and administrators hear many excuses from students every day at Westside High School. They range from, "I had to go to my locker first" to, "The halls were crowded

and I couldn't get to class on time." Students may get away with some of these excuses, but teachers aren't falling for it! Students don't realize that adults have heard every excuse

in the book. "Do it right" the first time, then there will be no need for excuses! It is easier to do a thing right than to explain why you didn't.

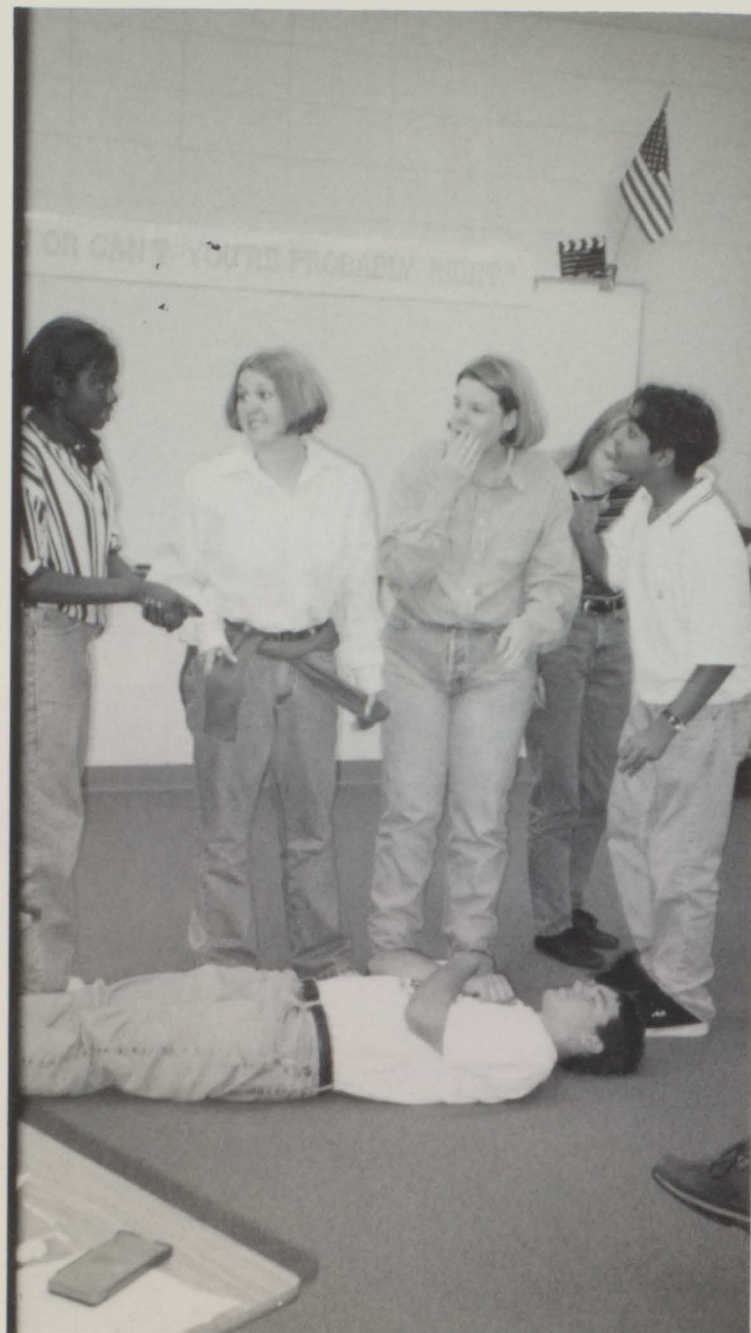

**Latasha Loyd** "gets rid" of some unruly audience members.

**David Moultrie, Jennifer Stiles, Molly Baker, Nikki Wall, and Neil Patel** seem unsure of what should be done when **Beau Skaggs** "dies".

**Becky Kelly, Latasha Loyd, Beau Skaggs, and Neil Patel** are guests on a talk show, trying to unravel a VERY sticky situation.

**Molly Baker**, and audience member, reacts to questions of **Tomeka Banks** and **Rebecca Drummond**.

**Latasha Loyd** reacts to a question from the audience.

Sharing thoughts on the talk show.

Adviser **Julia Manard** is very involved in all aspects of Westside, including allowing students to "decorate" her during the Halloween pep rally.

Audience member **Terry Timley** asks a question, wig and all.

The "Talk Show" role-play begins.

## Day At The "IMPROV."

*Westside's  
Drama Club  
practices  
improvisation  
and role play  
techniques.*

**Mrs. Manard's** Dramatic Arts class is open to any student grades 9 - 12. Throughout the year, the class is involved in numerous theater activities, speaking activities, improvisations, monologues, and the One-Act

play that will be performed during second semester.

One-Act Competition was held on November 17, 1997. Under the direction of **Mrs. Julia Manard**, the play Looking for a Better Berry Bush was about a friendship

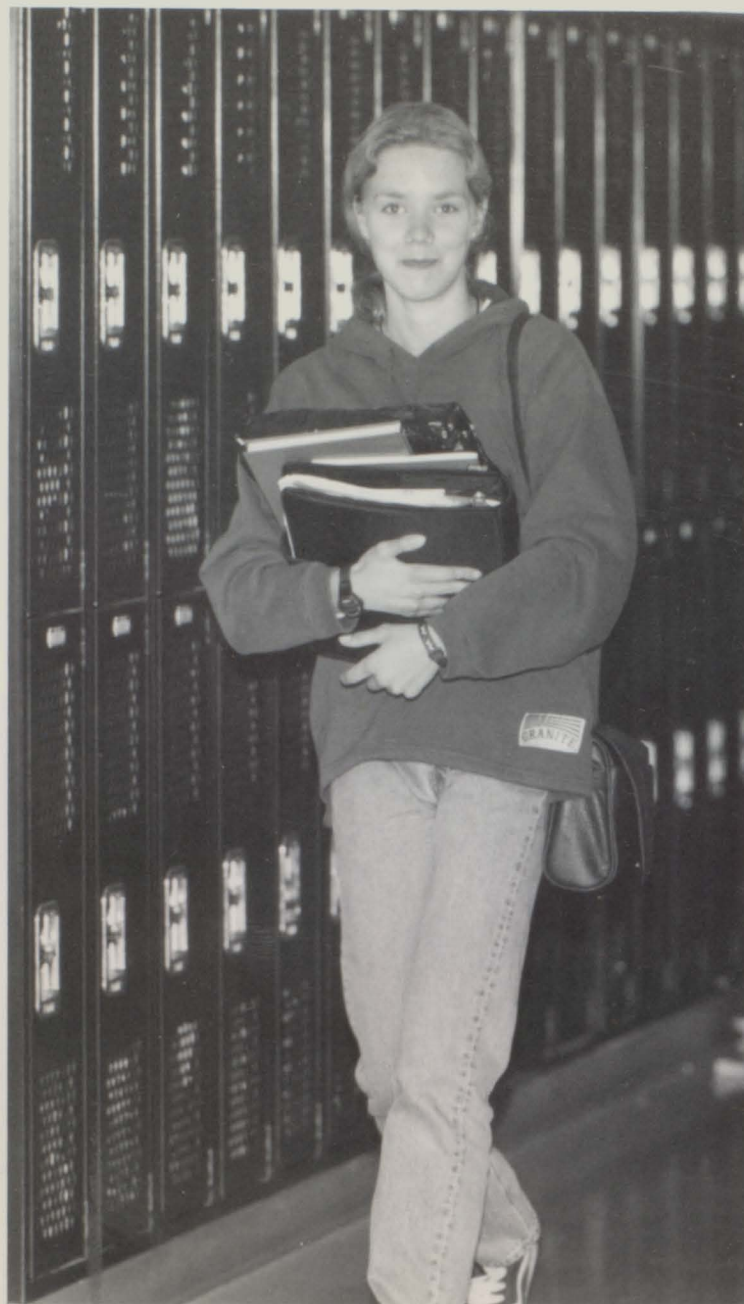

between a woman named Emma and a "bag lady" Addie. **Rebecca Drummond** played the part of Emma, and **Ashley Saferight** played the part of Addie.

**Alvaro Corrochan** smiles at the camera.

**Astrid Bosse** pauses before going to class.

**Astrid Bosse, Stefanie Peters, Angi Shen, and Lenita Ferrero** and other exchange students came together for a picture at a featured cook-out for the exchange students.

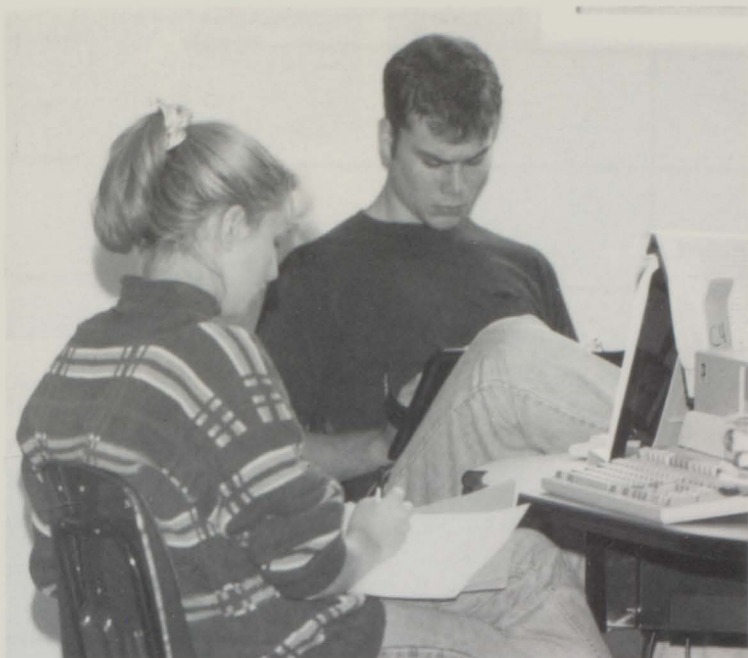

**Beau Skaggs and Astrid Bosse** relax and unwind as the first week of school is underway.

**Allison Toller, Pat Coxsey, and Pat Stansbury**, as sponsors for the cook-out, take time to smile and relax.

**Fabian Fischer** and a friend work diligently in the computer lab.

**Stefanie Peters** stops for a second while learning the ways of American schooling.

**Lenita Ferrero** smiles at the camera while having fun at the cookout for the new exchange students at Westside High School.

**Emily Pritchett, Astrid Bosse, and Sarah Baker** are independently working in the library for a vigorous French III class.

## How Do You Like America?

*Whether students realize it or not, Westside High has welcomed some very important international students.*

Westside High School has welcomed some very important students to the student body. This year, Westside began a program involving exchange students. The program is sponsored by **Mrs. Pat Stansbury** and she has really showed these students hospitality. The students are chosen from their

countries and sent here to learn the customs of America and how we live. They stay with host families.

The exchange students enjoyed a cook-out at the beginning of the year which helped them feel at home. The students miss their families, but they are greatly enjoying Westside and America.

Westside Seminoles welcome **Stefanie Peters, Fabian Fischer, and Astrid Bosse**, all from Germany, **Angi Shen** from China, **Lenita Ferrero** and **Alvaro Corrochan** from Brazil, and **Tobias Meugebauer** from Switzerland. We're glad that you're here!

# HERE'S LOOKING AT YOU

**Mr. Robert Stevenson's** second period Honors U.S. History class bids a fond farewell to **Jason Miller**, a Westside stand-out who is moving to Roswell. We'll miss you!

**Derrick Johnson** and friend lead the Seminoles into another victory.

**Mario Bakon** rushes to get his books from his locker before classes start.

**Alisha Mathis, Tonya Jones, Shondra Richardson, Chris Hughes, Krystal Lewis, Alfonzo Williams, Eric Cooper, Celeste Majors, Konvecia Bryant, Carolyn Ross, and Brianni Jones** socialize in the 2nd hall in between classes.

"I have three Rottweilers and a Shitzu." — Mrs. **Nancy Jordan**, Math

**Susan Ouzts** asks for clarification from a student in the media center.

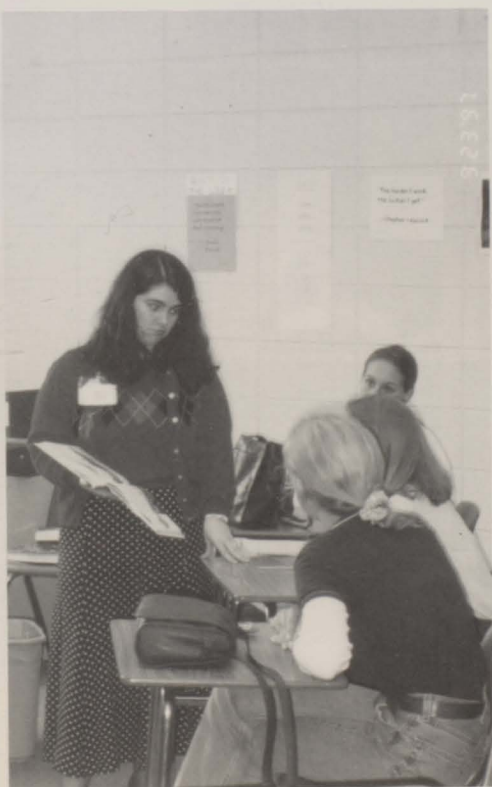

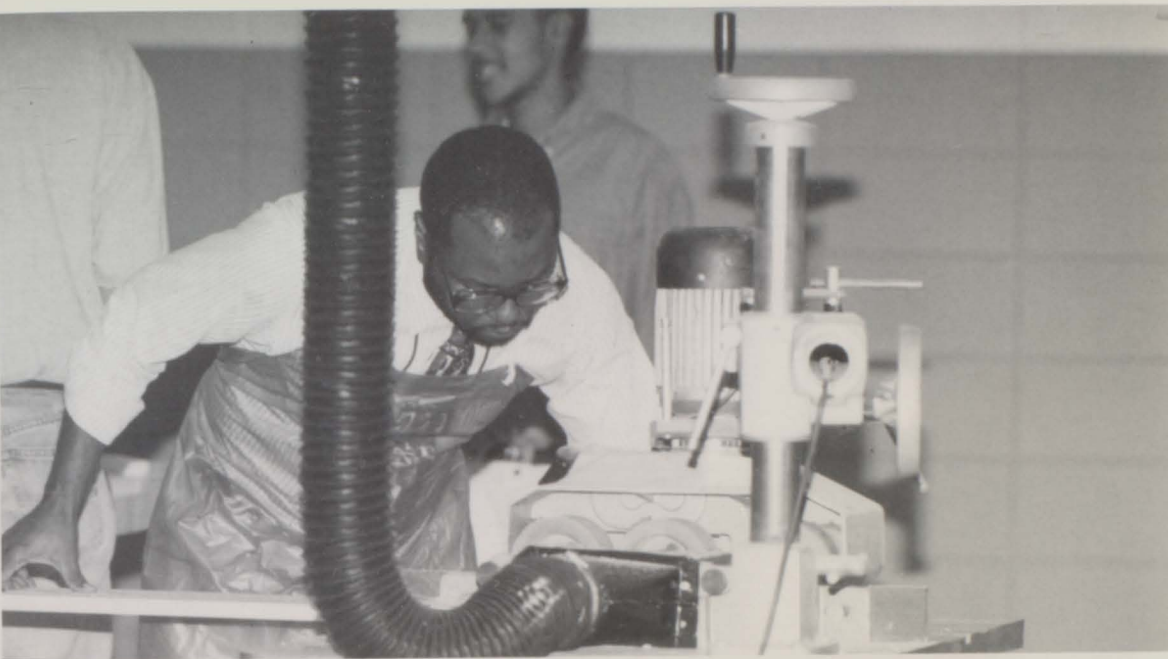

**Robert Stevenson** is caught in the middle of a discussion.

◆ **Officer Coleman** rides through the quiet halls, making sure that they stay that way.

**Mr. Alfred Allen** shows that he knows his machinery.

◆ Once again, **Mrs. Martha Barrett** shows that winning smile.

**Mrs. Andrea Shoemaker** goes to all lengths to make sure that her students understand.

## League shift toughens competition

Bibb County Schools added a new team to the roster this year to play in a new game. This was the first year for girl's fast-pitch softball. The team was successful because the girls had a lot of interest in it. They have a lot to look forward to. All the Lady Seminoles will return for next year's season. They started three freshmen and the rest were sophomores. They played in some tough tournaments that will improve their perfor-

mance next year.

The Lady Seminoles were led by Coaches Baber, Womack and Henderson, who call themselves the Three Muskeeteers. They will look forward to returning players like Candice Lindsay who played more like a junior than a freshman, and Brooks Hickman, an outstanding outfielder.

Christy McKorkle knocks out the competition.

*Starting a strong tradition.*

The Seminole football program in its first year has proven it will be a tough act to follow. Westside had a 9-0 record, they let no one stand in their way. With a brand new team, lead by the legendary coach Robert Davis, they exceeded all expectations.

This tradition wasn't begun over night. Starting in the spring of 1997, the team began meeting. Later in the summer, they went to a week of camp, where they practiced three times a day. Once school began, practices were held from 2:45 until dark. Soon the

Seminole football team began to work as one.

The deciding moments came at Westside's first game in early September against the Lanier County Bulldogs. The Seminoles dominated throughout the game for a final score of 57-0. After the shutout many doubts were put to rest.

After this game the Seminole football team kept on going strong. The final record was 9-0, the 'Noles finished on top. They hope next year will be just as exciting.

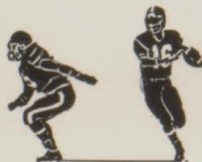

Jamie Walters does all he can to prevent the play.

Chandler Penn makes a smooth handoff to Antwan Hill.

## Westside's Swim Team

This swim team is the "new kid in town". It has gained several new supporting fans. This is the first swim team for Bibb County, as well as Westside's first swim team. It has been a new challenge as well as a new goal. Swimmers have lobbied for nine years to have this addition to the Bibb County Athletic Program.

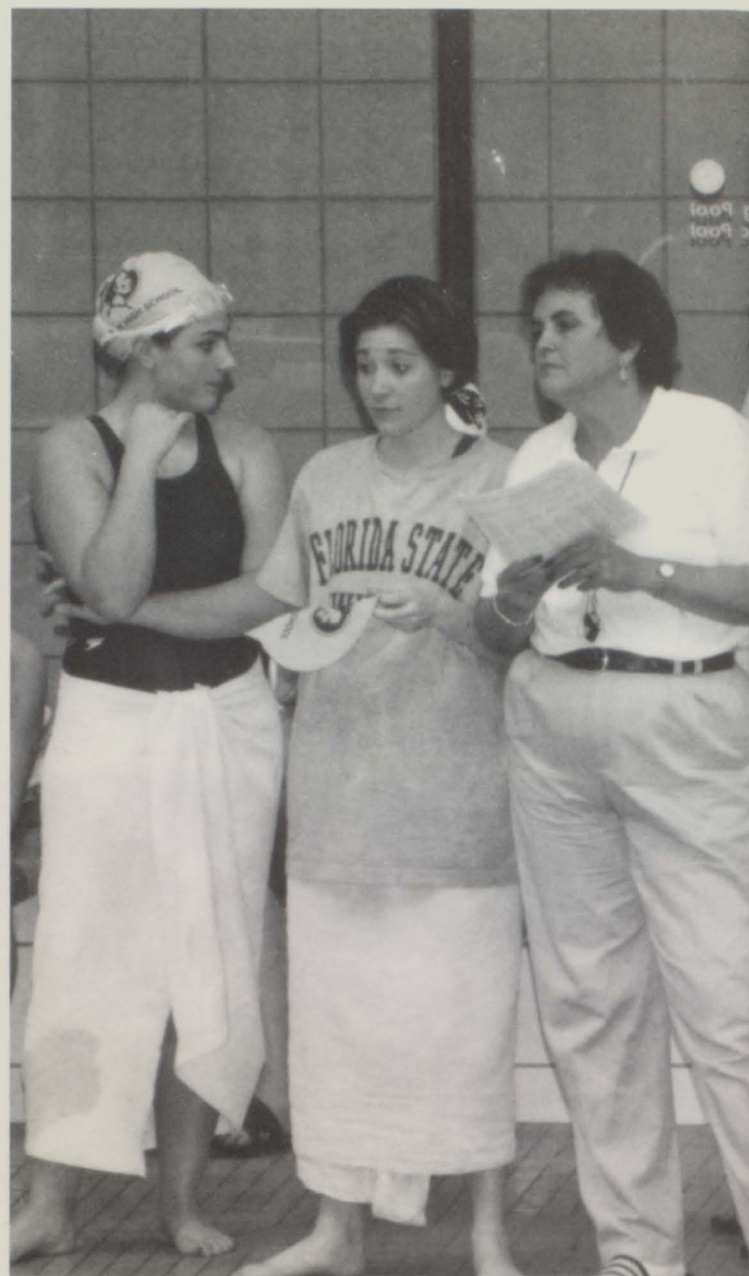

The hardest thing the swimmers have had to deal with is the fact that they are all friends, and practice together.

However, when they compete, they must compete against each other! The Swim Team looks forward to many new goals achieved and records made by swimmers in the years to come.

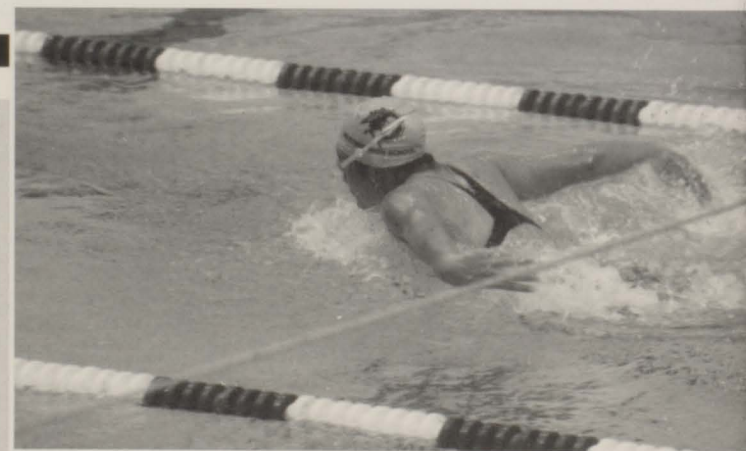

This year, the Swim Team competed in meets at the University of Georgia, Georgia Southern University, and Augusta.

# We've Got Spirit!

*Cheerleading at Westside reaches new heights.*

Behind every good team, there is a great cheerleading squad. Westside was no different. Both the Junior Varsity and Varsity squads gave it their all consistently throughout football, basketball, and competition seasons. Their success did not come overnight. As they say, "Practice makes perfect."

Tryouts were held in the spring of 1997. Summer practices were held once a week.

Once school started, practices were four days a week with games on Fridays and Saturdays. The girls always had smiles on their faces. They pulled the teams through some tough times.

Many memorable moments were made on the buses, during games, performing at half time, pep rallies, and practices. They really had a great season. "Without cheerleaders, it's just a game."

The J.V. cheerleaders show their spirit as they perform at the last football pep rally.

## *Westside's Strings Program*

Westside's Strings program is the first of its kind, and each member strives to make this orchestra the best. In concerts, they combine with Weaver Middle School Strings to broaden their sound. "I look forward to what they will accomplish in the future," says orchestra director John Sweat.

*"The students in orchestra class continually amaze me by what they accomplish. They perform with a great level of musicality and sensitivity. I have enjoyed watching them grow as musicians and as people this year."*

The Westside High School Strings gather around Mr. Sweat to practice before their upcoming concert.

# Siblings

*Westside siblings really love each other.*

At Westside High School, siblings are everywhere. Some faces are different, but many are the same. It's fun to see them together and observe their differences and similarities.

You never know what's going on inside! Some siblings say that they try their best to get along with that brother or sister, but sometimes it can't be done! Some others say that they always

love their siblings and tell them everything. It makes the "only children" feel jealous, that they may have missed out on such close friendship in a brother or sister.

Mara and Derek Garcia try to get the best of each other.

Tamara and Tamina Bacon are best friends.

Ashlie Shaw helps her mom after school with the writing folders.

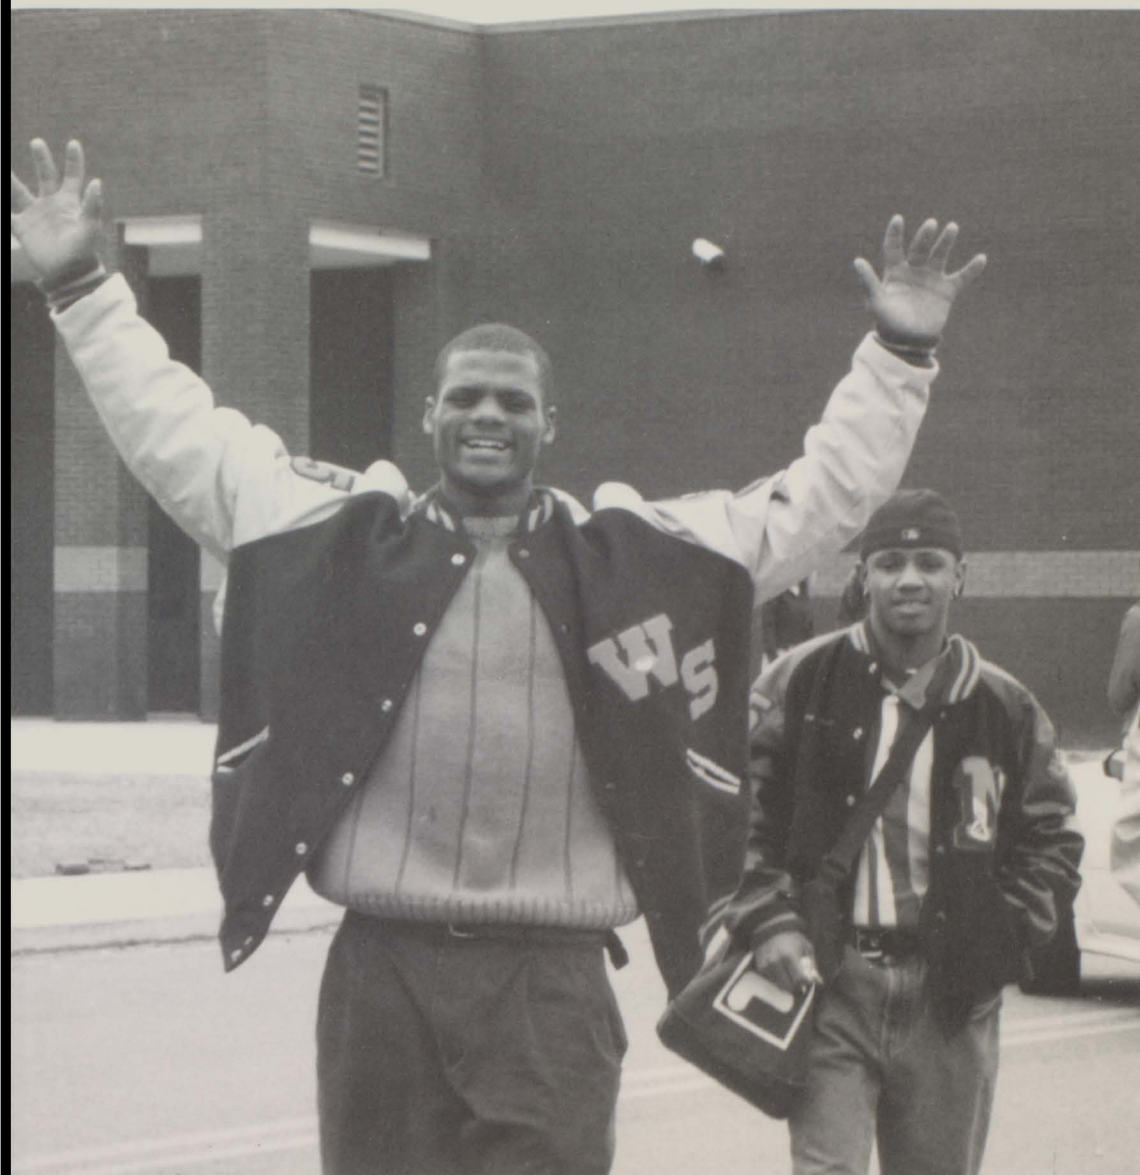

As a new high school, we began the year by "Looking Forward to Looking Back." In the last year, we have laid the foundation our school will stand on in the years to come. We have set traditions and records that will never be forgotten. The 1997-1998 school year is on its way to becoming a "Legacy."

Despite the over-anxiousness of students and faculty who wanted the year to end, each hated to see the other go.

### *Ciao*

Jennifer Allen and Le Anne Lee practice their waves for that final goodbye.

that, whatever you say  
—be true, straight  
fowardly act; Be honest in  
fact; Be nobody else but
